

Micheldever & Stratton Preschool Daily Running Policy (Revised 4th January 2021)

Working in conjunction with the Early Years Foundation Stage Statutory Framework (EYFS).

Quality and Consistency.

A Secure Foundation.

Partnership Working.

Equality of Opportunity.

Unique Child Positive Partnerships Enabling Environment Learning and Developing

Policy Statement:

The preschool committee and staff are keen that we continually maintain a high level of early years education; whilst ensuring that the health and safety of all children, parents and staff are protected and is paramount to us being able to open and continue to run successfully.

Aims:

We aim to provide and maintain a high level of educational care and commitment to all families registered with the pre-school

We aim to ensure that we maintain high levels of hygiene and to promote the hygiene for all individuals whilst on and off the premises

We aim to measure the infection level rates both within the pre-school, the local community and within the country. Any changes to any of the monitored areas will be communicated to parents, staff, committee and any other bodies that may need to be aware.

We aim to make all children, parents, staff and committee aware of the increased risks and provide relevant risk assessments and additional displayed information in and around the pre-school.

We aim to continue to provide a caring atmosphere, whereby the children and staff can feel safe, healthy and secure especially during the pandemic.

Procedures:

We have implemented some changes that the pre-school will have to undertake to ensure the safety, well being and to minimise the spread of infection. When necessary, we will undertake these by any of the following; reducing our opening hours, capping the numbers of children attending daily, staggering the drop off times/pick up times to enable parents and children and staff to socially distance themselves, have adequate numbers of staff to enable small groups of children to be together, stagger snack times to enable social distancing, change our drop off/collection registration process, provide smaller resources that can be either not

shared or cleaned daily, increase our hygiene routines and promote these amongst the children, increase our daily cleaning of highly touched areas.

Daily operating schedule:

We will operate between the hours of 8.30am and 16.30pm, Monday to Friday.

Parents will be dropping off and collecting their children via the patio doors, through the gate to the right-hand side of pre-school. They will not be permitted into the setting. Their pegs will be inside the back room and staff will supervise children washing their hands, children will use the lunch trolley for their lunchboxes and water bottles. The parents will then be directed to leave the pre-school via the garden back gate.

During any future lockdowns, all children will be welcomed into pre-school, but we will be limiting any visitors into pre-school and constantly monitor how the situation changes in line with advice from the government and DFE.

Children and staff will maintain extremely high levels of personal hygiene, we will ensure that regular washing of hands takes place and stress the importance to the children in a fun and friendly manner of why we must maintain this. Staff will ensure that all high touched areas are cleaned before, during and after each session to help prevent any spread of viruses.

Any child or staff member that displays any symptoms of Covid 19 will be prevented from coming into pre-school and asked to self-isolate for 5 days. If they display symptoms during session times, they will be moved away with the upmost of care and asked to go home (in the case of staff) or parents called to collect their child. This will also be the case should they be in contact with anyone else outside of the setting who may display symptoms or test positive. They will be advised that they can test if they choose to.

The children will be reminded of good hygiene at the snack table and staff will ensure that all surfaces will be cleaned regularly, the children will be offered a choice of fruit which the staff will prepare and serve to them directly. No sharing of food/drink will be allowed.

Children will be reminded to keep their own things safe. We will not permit any toys from home coming into pre-school as the virus can live on surfaces for up to 72 hours. Children will only be allowed access to those resources that staff can clean daily. They will be reminded not to mouth the toys etc... to help prevent any potential spread.

-As a responsible employer we wish to ensure that the health, safety and well being of all individuals attached to the pre-school is always at its highest.

Any meetings should take place via video conferencing to ensure that social distancing measures can take place. The manager will provide a monthly overview of how the pre-school is operating to the committee and any difficulties identified.
